

CUSTOMIZATION

pennant case customization

X

feel free to mix it up! every color in your case can be different! we do ask that all the **lettering in your case be the same**. if you are looking to order less than the minimum, check out our pennant sample listing.

mock-up

X

we totally get that you are making an investment by ordering with us (and we thank you so much). we are more than happy to provide you with a digital mock-up to ensure that you love your custom pennant so very much!

hand lettering

X

each locale is individually hand lettered, no fonts here!

the style for the pennants is not in the classic descending letters. If you would prefer this style, please reach out so that we can make sure that we can fit your customization into that style.

please note, that the lettering is at the artist's discretion to ensure that the customization best fits the pennant design. this may result in lowercase/uppercase letters to be interchanged.

always feel free to reach out!
