

# LEAD TIME

## general info

X

due to the custom + handmade nature of our pennants, our lead times can be longer than normal. quality is very important to us, and we just want to ensure that every pennant that goes out receives the same attention to detail, regardless of order size.

## updates

X

we know that having an up-to-date lead time is important when planning your shop's purchases, so we update our lead times as needed based on our order volume in the Faire portal, as well as at the bottom of each listing description.

## need by date

X

having a store event? pop-up shop? expecting a big weekend? we are happy to accommodate need by dates for your shop. Just reach out before placing your order, so we can confirm that we can match your timeline.

always feel free to reach out!
